

ROMAN FABRIC COLLECTION

Roman Shades

Soft folds and textile depth for a warmer, more furnished room.

A guided in-home selection

Review the collection online, then confirm color, texture and opacity with the physical fabric in your own light.

Start with the room, not the swatch.

Recommended for Bedrooms, living rooms, dining rooms and interiors where fabric should be part of the design.

01

Light and privacy

Choose translucent or room-darkening material around the room goal.

02

Texture

The weave and fold structure create more visual presence than a flat roller.

03

Room palette

Confirm warm, cool and neutral tones beside the actual wall and trim.

Your digital shortlist is only the starting point.

Screens can shift color and texture. BLINDS100 brings the physical books to your home so the final fabric can be viewed against the actual glass, wall, trim and daylight before approval.
